General Instructions

Arizona Revised Statutes §§ 43-1081 and 43-1170 provide nonrefundable individual and corporate income tax credits for expenses incurred during the taxable year to purchase real or personal property that is used within Arizona in the taxpayer's trade or business to control or prevent pollution. The amount of the credit is equal to 10% of the purchase price, limited to a maximum credit of \$500,000 in a taxable year.

Co-owners of a business, including partners in a partnership and shareholders of an S corporation, may each claim only the pro rata share of the credit allowed based on the ownership interest. The total of the credits allowed all such owners may not exceed the amount that would have been allowed for a sole owner of the business.

The credit is available to an exempt organization that is subject to corporate income tax on unrelated business taxable income (UBTI). The credit must result from the activities that generate UBTI.

Qualifying property includes a structure, building, installation, excavation, machine, equipment, and any attachment to, or addition to, or reconstruction, replacement, or improvement of that property. Property eligible for the tax credit includes only that portion of the property directly used, constructed, or installed in Arizona to prevent, monitor, or reduce air, water, or land pollution that results from the taxpayer's direct operating activities in conducting a trade or business in this state. The property must meet or exceed rules or regulations adopted for this purpose by the United States Environmental Protection Agency, the Arizona Department of Environmental Quality, or a political subdivision of Arizona.

Amounts that qualify for the credit must be includible in the taxpayer's adjusted basis for the property. The adjusted basis of any property for which the taxpayer has claimed a credit must be reduced by the amount of credit claimed for that property.

If the allowable tax credit exceeds the taxes otherwise due or, if there are no taxes due, the amount of the credit not used to offset taxes may be carried forward for not more than five taxable years as a credit against subsequent years' income tax liabilities.

Specific Instructions

Complete the name and taxpayer identification number section at the top of the form. Indicate the period covered by the taxable year. Attach the completed form to the tax return.

All returns, statements, and other documents filed with the department require a taxpayer identification number (TIN). The TIN for a corporation, an exempt organization with UBTI, an S corporation, or a partnership is the taxpayer's employer identification number. The TIN for an individual is the taxpayer's social security number or an Internal Revenue Service individual taxpayer identification number. Taxpayers that fail to include their TIN may be subject to a penalty.
