General Instructions

NOTE: You *must* also complete Arizona Form 301, Nonrefundable Individual Tax Credits and Recapture, and include Forms 301 and 341-I with your tax return to claim this credit.

Arizona law allows an individual shareholder to claim a nonrefundable tax credit for the pro rata amount of contributions made by an S Corporation to a school tuition organization.

The S corporation must make an irrevocable election on Arizona Form 341, *Credit for Contributions to School Tuition Organization for Displaced Students or Students with Disabilities*, to pass-through the credit to its individual shareholder(s). The S corporation making the election should give you an Arizona Form 341-S, *Credit for Corporate Contributions to School Tuition Organizations for Displaced Students or Students with Disabilities - Distribution to Shareholders of an S corporation*, indicating your *pro rata* share of the available credit for the taxable year. The amount of the allowable credit you may claim is reported on Form 341-S.

An individual shareholder may claim a corporate private school tuition credit passed through from an S corporation even if the individual has already claimed the maximum amount allowed under the two individual private school tuition credits (Arizona Forms 323 and 348). The corporate private school tuition credits passed through from an S corporation are different credits that are not subject to the limitations under the two individual private school tuition credits.

NOTE: Individual Shareholders of an S Corporation with a Fiscal Year-End - If you file your tax return on a calendar year basis, but the corporation files a return for a fiscal year, claim the credit on your tax return for the year in which the corporation's fiscal year ends. For example, if the corporation's tax year ends in February 2017, claim the credit on your 2017 tax return.

Co-owners of the S corporation may each claim the pro rata share of the credit allowed based on the taxpayers ownership interest. The total of the credits allowed all owners of the corporation may not exceed the amount that would have been allowed a sole owner of the business.

If the allowable tax credit exceeds the taxes otherwise due, or if there are no taxes due, you may carry the unused credit forward for a period not to exceed the next five consecutive taxable years' income tax liability.

You cannot claim both a tax credit and an Arizona itemized deduction for the amount of contributions made to a school tuition organization for which you are claiming a credit.

NOTE: This tax credit is not allowed if the S corporation or a shareholder designates the contribution to the school tuition organization for the direct benefit of any dependent of a shareholder of the corporation claiming a credit under this section or if the corporation or a shareholder designates a student beneficiary as a condition of the contribution to the school tuition organization.

The tax credit is not allowed if the S corporation or a shareholder, with the intent to benefit a shareholder's dependent, agrees with one or more other taxpayers to designate reciprocal contributions to school tuition organizations for the direct benefit of the other taxpayer's dependent.

Specific Instructions

Type or print your name and taxpayer identification number section at the top of the form. Indicate the period covered by the taxable year. Include the completed form with the income tax return.

All returns, statements, and other documents filed with the department require a taxpayer identification number (TIN). The TIN for an individual is the taxpayer's Social Security Number (SSN) or an Internal Revenue Service (IRS) individual taxpayer identification number (ITIN). Taxpayers that fail to include their identification number may be subject to a penalty.
